

THE VINYL FACTORY x I80 STUDIOS

invites you to our

# Gillette Building Studios

Public Consultation

Join us and have your say

CGI showing how the site will look with our proposals

We will be hosting an in-person consultation event on Wednesday 5 June (details overleaf) for you to learn about our transformational proposals for the Gillette Building site and have your say about our plan to create a state-of-the-art virtual production, film studios and technology hub with associated facilities specifically aimed at digital content creation.

You can read more about our proposals and provide your feedback online:

**<http://gillettebuildingstudios.co.uk>**

Our consultation will run from Thursday 23 May until Friday 14 June.

**The site is currently underutilised, with existing buildings either vacant or partially occupied.**

Over the past few years, we have been working with local stakeholders, the council, and TfL to identify how we should restore this important and historical landmark back into use and provide state-of-the-art filming and virtual production facilities.

Our proposals will secure long-term use for the Grade-II Listed buildings in a way that protects, respects, and revitalises the site and surroundings, whilst delivering the leading state-of-the-art film studios on campus.

**We plan to:**

- Retain the Gillette Factory building to refurbish it into production office, support and ancillary space for the proposed film studios.
- Retain and refurbish buildings with heritage significance, including the Gillette Building, NatWest Bank, and parts of Campbells Building.
- Create nine sound stage studios, production offices, screening, and workshop spaces.

**By doing this, we can create up to 2,000 new and local full-time permanent, indirect, and induced jobs.**

**Please feel free to join us at our in person on-site event.**

**Wednesday 5 June 2024, 15:00–19:30**  
(You can drop in at any time)

**Location:** IPF Building, Gillette Studios, Brentford, TW7 5LW

*Access via the Harlequin Avenue rear entrance.*
